

— A Major Work —

Can God's Plan be hindered by man's free will?
Can we even be certain that man *has* free will?

Philosophers, theologians and ordinary people have pondered these important questions for centuries—with conflicting answers. Bruggeman delves into great detail and shows in layman's language how the Bible answers these and other critical questions. If you have wondered just how sovereign *is* the God you worship, you will find the definitive answer within these pages.

“This is a seminal work on the subject of free will.” —*Ron Oja*

“Is one saved by grace or election? Why does God allow horrible things to happen to decent people? Is God responsible for evil? What is the difference between foreknowledge and predestination? ...Bruggeman has uncovered what the patriarchs understood, what the prophets taught, and what the apostles revealed...By Bruggeman's hand, the Gospel, the good news of the kingdom, is revealed in all of its glory...Prepare to be blessed in knowledge and understanding of how great our God really is. **READ ON!**”

—*from the Foreword by E. Raymond Capt*

Our purpose in this work is not to present a Sunday-school-style “survey” course which merely hits the highlights of a doctrine. This will be an in-depth presentation of this subject. At the same time, it is not our intent to become bogged down with technicalities that only ministers or theology professors have the patience, aptitude or desire to explore. It is designed to appeal to any Christian believer who desires to grow and become more mature in his understanding of the Word and of the character of our heavenly Father. —*from the author's Preface*
