

# Parthia: The Forgotten Ancient Superpower and its Role in Biblical History

*Book 3 of the series concerning the Lost Tribes Of Israel by Steven M. Collins*

## From the back cover:

Although little-known to modern readers, the ancient kingdom of Parthia played a key role in historical and Biblical events. It boasted one of the greatest kingdoms of the ancient world, and was one empire that Rome actually feared. Just decades before the birth of Christ, its armies drove the Romans completely out of Palestine, Syria and Asia Minor, forcing the reigning King Herod to flee for his life. Who were the Parthians? In this book, exciting new research is presented proving a Semitic-Israelite connection and even a link to King David within the Parthian royal family. Some of the events of Jesus Christ's life become more understandable when they are examined in light of the politics that prevailed between Rome and Parthia at that time. One group of Parthian elites that chose Parthia's emperors was called the "Magi" or "Wise Men." A delegation of these high Parthian officials worshipped the young Jesus.

This book recounts the intense battles between Rome and Parthia that were among the largest and most pivotal ever fought in the ancient world. The Roman Triumvir, Crassus, met an ignominious death fighting the Parthians and Mark Antony led a large army into Parthia, but was driven out and barely escaped with his life. This exciting story is told with the aid of over 100 maps, charts and illustrations. Very well researched by historian and writer, Steven M. Collins, with over 20 pages of appendices. This is truly a book you will find hard to put down.
