

What Readers Are Saying About

Sacred Secrets of the Sovereignty of God

“It is absolutely fabulous! It is extremely well-written; extremely informative, and it is truth personified! I will buy extra copies to have to share with people.”

—Jack, Idaho

“What a treasure!! I’ve started reading it for the second time. You write in such a warm informative style, adding a little touch of humor here and there. I love it! You have fleshed out some of the concepts I have learned from other books and added a new dimension of learning. Your style of writing makes me feel as though I’m being tutored personally. I’m so blest to have ‘found’ you and your ministry. My journey from the time I left ‘my church’ to your teaching was a rather long and rocky road. But what a grand award was waiting at the end of that trip.

So I’m resting now in the awesome teaching and understanding that I’m receiving from our heavenly Father through His disciples, one of which is you, dear James. And you are doing a fantastic job. I thank you with joy and gratitude and I’ll keep reading if you keep sending. God bless you, dear one, and your family of loved ones.” —Eleanor, Wisconsin

“I am impressed! You have done a great job. This is going to be a wonderful trilogy. It is really going to educate a lot of people.”

—Kevin, Georgia

“You have done a magnificent job. It is very readable and nails everything down so well. You have backed everything up with great research. I read it almost completely through in the first two days after receiving it. Thank you!” —Ernestine, Idaho (a pastor)

“First, let me say that I enjoy your writing style—it is comfortable to read, and it is friendly and sort of like I was sitting there listening to you talk. I like that. I also like the way you thoroughly explain everything in a clear and easy-to-understand manner....During the course of reading the book, you answered many questions that have come to my mind since I have become acquainted with...Universal Reconciliation. There are many things I have wanted to ask, but because I didn’t want to appear to be just picking an argument, I kept silent. I find no argument with the concept of the salvation of all. I think it is beautiful. But sometimes when I ask a question people seem to think that I am trying to put the other person on the spot. That certainly is not the reason for my questions. My questions are because I am trying to learn...

[*And after many detailed points, she wrote*] So I want to thank you for making this so plain in your book. You have obviously correctly interpreted these plain scriptures which tell us the legal transaction concerning original sin, its penalty, and its payment. You show how Jesus was the second Adam and thereby could pay the death penalty and consequently provide everlasting life for all mankind. So I hope your book will be read by many who do not see the beauty and the simplicity of the legal transaction of the ‘ransom for all.’ Hopefully it will help them to see its beauty. Thanks again ...for your many hours of labor and research.—(the late) Bonnie Gaunt (who herself was a prolific author—JWB)
